

# ALU STRUCTURE SERIES

The ALU structures create unlimited interior arrangement options, they are perfect for organizing any type of event. They are used both as temporary exhibition facilities, market halls, temporary shopping pavilions and conference rooms. Functional and aesthetically pleasing structures can fulfill the function of roofing for catering, outdoor halls for weddings, corporate events and outdoor concerts.

Our structures provide our end users with the highest level of safety and comfort. They effectively protect all their users from changing weather conditions.

The structures can be finished according to an individual needs. Accordingly, we offer a scope of additional equipment of the proposed structures [power generators, light sets, cots, sanitary containers, mobile kitchens, wash racks etc.] and a variety of finishes [including walls made of safety glass or PVC panels, lining, wall dividers]. The structures provide optimal flexibility in organizing events not only based on the season, but also on the size and type of the event. Rekord offers a short delivery time of our structures, quick assembly, disassembly and turnkey solutions. Rekord's ALU is an exceptional choice for:

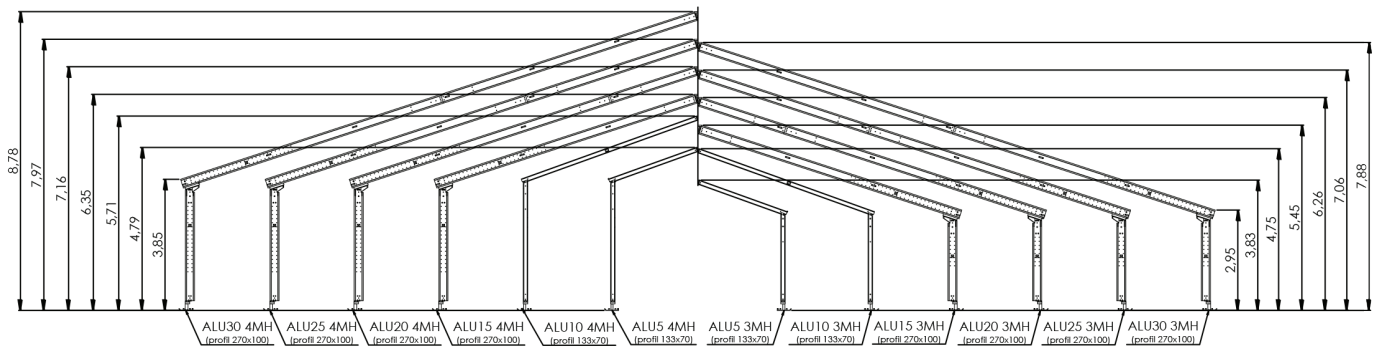

- Agricultural
- Barracks/Dormitory
- Conference Halls
- Corporate Events
- Dining Facilities
- Event Venues
- Exhibition Halls
- Glamping Compound
- Market Booths/Space
- Military Applications
