

FUEL TANKS

Specialized fuel tanks are designed for the safe storage and efficient transport of fuels. Constructed from high-grade steel with advanced welding technology, these tanks meet the highest safety standards and provide reliable performance.

- **Compliance with Standards:** Tanks adhere to ADR regulations governing diesel fuel transportation.
- **Variety of Options:** Available in multiple sizes and colors to suit different needs.
- **Safety Features:** Each tank includes a removable cover, vent valve, inspection hatch, and both return and suction connections for secure refilling and emptying.
- **Certification:** Tanks are certified by the COBRO Packaging Certification Center.
