

HF DECONTAMINATION CABIN

HF inflatable cabins are mobile sanitary facilities that provide decontamination readiness in no time.

HF cabin has proven to be the most efficient solution for field and emergency medical rescue units.

- The cabin is fitted with a water distribution system using shower nozzles.
- The cabin can be inflated with a compressed air cylinder, an electric compressor or a hand pump.
- The cabin is inflated and folded with decontamination nozzles and water distribution system built-in.

HF DECONTAMINATION CABIN

HF-S04P cabin
