

LAUNDRY CONTAINER

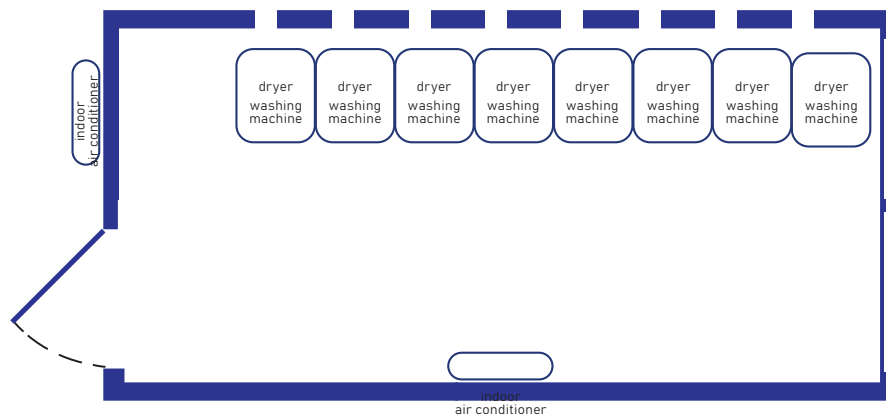

Designed to offer high-performance washing and drying capabilities, our laundry containers are available in 20 ft. and 40 ft. options. Depending on the configuration, each unit features either 8 or 20 premium washing machines and the same number of tumble dryers. Our laundry container provides a versatile and efficient solution for large scale laundry operations, ensuring reliability and ease of use in various environments.

- **Flexible Options:** Choose between 20' and 40' sizes, with 8 or 20 high-end washing machines and tumble dryers respectively.

- **Advanced Equipment:** Includes air conditioning, an automatic detergent dispenser, and an electric heater for enhanced functionality and user comfort.
- **Direct Water Supply:** Can be connected to an existing water supply system.
- **Alternative Water Solutions:** In areas without direct water supply or sewage access, the container can be equipped with water and sewage tanks, including two 9.8 yd³ (7.5 m³) water-storage tanks.
- **Additional Services:** Optional clean water supply and grey water removal services are available.
